# 1 - From Time to Time

(By Harry C)

Brainwashing fake news on unsocial platforms  
Where did those media go?  
Brainwashing adverts on unsocial platforms  
Are you still part of the show?

From time to time  
You just got to break out  
Just get rid of that stuff  
From time to time  
You just got to break out  
Just get rid of that stuff

Someone is watching you, knowing just every move  
Never before felt so safe  
Someone is watching you, knowing just every move  
It's being done for your sake

From time to time  
You just got to break out  
Just get rid of that stuff  
From time to time  
You just got to break out  
Just get rid of that stuff

How do you handle those brilliant inventions that  
Steal so much time of your life?  
How do you handle those brilliant inventions that  
Promise you multiple lives?

From time to time  
You just got to break out  
Just get rid of that stuff  
From time to time  
You just got to break out  
Just get rid of that stuff

From time to time  
You just got to break out  
Learn how to use it and you're fine  
From time to time  
You just got to break out  
Learn how to use it and you're fine

# 2 - If They Only Knew

(By Harry C)

I don't want to hear it's too late  
I don't want to hear it's our fate  
Will you soon come back to me?  
I'll hold you in my arms and feel  
Love is everywhere  
If they only knew

I don't want to face war again  
I don't want to be trapped in someone's plan  
Will you soon come back to me?  
Hold me in your arms and feel  
Love is here to heal  
If they only knew  
If they only knew

**Time goes on**  
**We must be so strong**  
**I've been so afraid**  
**To lose you any day**

I don't want to face war again  
I don't want to be trapped in someone's plan  
Will you soon come back to me?  
Hold me in your arms and feel  
Love is here to heal  
If they only knew  
Love is here to heal (If they only knew)  
Love is here to heal (If they only knew)  
Love is here to heal (If we only knew)  
Love is here to heal (If we only knew)

# 3 - She Went Too Far

(By Harry C)

Manipulating other people just to get  
What she wants  
Claiming she's been treated badly when she don't get  
What she wants

Thinking 'bout the time when you were getting on so well  
Where has it gone?  
Thinking 'bout the time when it was going so well  
Was so much fun

**You don't have feelings for her anymore  
You've lost your feelings 'cause she went too far  
You don't have feelings for her anymore  
You've lost your feelings 'cause she went too far  
She went too far**

Consequences on other people's lives  
She doesn't care  
Just as long as her own victory arrives  
She doesn't care

Thinking 'bout the time when you were getting on so well  
Where has it gone?  
Thinking 'bout the time when it was going so well  
Was so much fun

# 4 - Come on to me Girl

(By Harry C)

Come on to me girl, show me your face  
Come on to me girl, don't hide in the maze  
Come on to me girl, show me your mind  
Show me your mind

Come on to me girl, show me your eyes  
Come on to me girl, now don't be shy  
Come on to me girl, show me your truth  
Show me your truth

Come on to me girl, show me your soul  
Come on to me girl, it's shining gold  
Come on to me girl, show me your heart  
Show me your heart

Come on to me girl, show me your face  
Come on to me girl, amazing grace  
Come on to me girl, show me your love  
Show me your love

# 5 - I'd Like to Know

(By Harry C)

Sometimes I feel like being close to you  
Sometimes I'd rather leave my work behind

I'd like to know that you're there  
I'd like to know you'll always care  
And in the morning of the day I wake up with you

I'd like to know that you're there  
I'd like to know you'll always care  
And in the middle of the day I'll dine with you

And tell you that you're the one  
I've been waiting for  
You're the one that's been making me feel free

Solo

I'd like to know that you're there  
I'd like to know you'll always care  
And in the evening of the day I'll go out with you

And tell you that you're the one  
I've been dreaming of  
You're the one that's been making me feel good

I'd like to know that you're there  
I'd like to know you'll always care  
And in the middle of the night I'll dream with you

I'd like to know that you're there  
I'd like to know you'll always care  
And in the morning of the day I wake up with you

# 6 - My Girl

(By Harry C)

I can tell that my girl  
Knows just what to do  
I rely on my girl  
To chase away my blues

Love is true with my girl  
Love is true I know  
Love is true with my girl  
In her smile it shows

Love is in her heart  
Love is in her soul  
Anytime I watch her sweet smile  
Oh - oh - oh  
Love is in her hands  
Love's her only goal  
Can't go wrong  
'Cause that's not her style

SOLO

Love is here to heal  
For the two of us  
And for every life out there  
Oh - oh - oh  
Love allows us to feel  
Love will ask you to trust  
Let your heart just see and learn to care

Love was made for our lives  
Love is real and good  
Take good care of her life  
Love is understood

I can tell that my girl  
Knows just what to do  
I rely on my girl  
To chase away my blues

I rely on my girl  
To chase away my blues

# 7 - All the Time

(By Harry C)

I'm watching TV  
Surfing the channels  
Checking the programmes  
And my mind drifts away

I'm one with the couch  
Listening to music  
Thinking of you  
And my mind drifts away

**All the time  
All the time  
I've been thinking of you  
All the time  
My mind is with you**

**All the time  
All the time  
All the time  
My mind is with you**

May you get  
What is best for you  
Maybe it's  
Not what you want

And wish  
For what is best for you  
And you'll  
Be just fine

I'm going through pictures  
On my smartphone  
A smile in my heart  
And my mind drifts away

Grabbing my guitar  
Strumming some chords  
Writing down words  
And my mind drifts away

# 8 - The Land Where I Live

(By Harry C)

The snow on the fields has gone  
The sun has melted it away  
The grass is getting greener  
Every day

The crocuses are growing  
And blaze in yellow, white and blue  
The sun is shining  
And makes the world look brand new

**I'd love to show you the land where I live  
Cause that's my beautiful world I can give  
to you**

The trees are getting greener  
Making shade for you  
The wind in their leaves  
Brings fresh air to you

Gentle creatures in the woods  
Fish, in the river splash  
The birds are building nests  
For their young ones to hatch

# 9 - Live My Life Free

(By Harry C)

I took a day off  
I went for a walk  
Out in the woods

Trees in golden light  
The sunshine so warm  
Lifting my mood

Fresh air to breathe in  
Seems nature told me  
To live my life free

Whoah

I took a year off  
I went on a trip to  
Countries abroad

New worlds to explore  
And reaching new shores  
On interesting roads

Fresh air to breathe in, seems my  
Nature told me  
To live my life free

Whoah

Have you seen my  
Wand'ring shoes?  
A metaphor  
For overcoming the blues

Looking back  
Learn from the past  
May good prevail  
May good things last

Fresh air to breathe in, seems my  
Nature told me  
To live my life free

Whoah
