Celebrate Our Lives

(by Harry C)

I do my work
I'm tryin' to do it well
I've paid my dues
Like everybody else

**And in the evening when I get home
I kiss and hold her in my arms
The world is gone and then we're all alone
And celebrate our lives through our love**

I've faced my fears
Like I knew I should
My dreams came true
Like I knew they would

**And in the evening when I get home
I kiss and hold her in my arms
The world is gone and then we're all alone
And celebrate our lives through our love**

Jill

(by Harry C)

Jill

Going up-uphill may be your pleasure

Jill

Leaving everyone down below's

Hopefully not your goal

Jill

Just conserving your power and pleasure

Is not how it works

When their pain buys your leisure

**Good intentions are good for you
Good for everyone
Good intentions make you feel free**

Jill

Can't you see that we are all together

In the same boat

A common endeavour?

**Good intentions are good for you
Good for everyone
Good intentions make you feel free**

Jill

Do you think you can squeeze them forever?

Jill

Do you think you can live your life

At the cost of someone else?

Jill

Can't you see that we are all together

In the same boat

A common endeavour?

This Good Life

(by Harry C)

A group of gentle people sitting 'round
Talking 'bout the beauty of the day
The music played with such a pretty sound
I found my mind drifting far away

(and it said:)

Oh, come, come, come, come
To, to, to, to me
La, la, la, la, play me!
Oh, I love life
How I love this good life
Oh, come, come, come, come
To, to, to, to me
La, la, la, la, play me!

For what is life when all that you can see
Is numbers spinning 'round in your head?
For what is life when you forget to be?
But hasn't that already been said?

I Can't Find You

(by Harry C)

For so long I've been searching for you there
Down the lane, the station, everywhere
But I could never catch a glimpse of you, baby
By now I don't know what else I could do, baby
So, won't you come out of your hiding place, baby
Please baby, please!

I can't find you
I can't find you
I can't find you
I've been most every place

I'd rather sell my house than give my love away
But I don't wanna wait for another day
I just can't get behind of what you're doing, baby
What's going on in your mind, don't have a clue, baby
So, won't you come out of your hiding place, baby
Please baby, please!

I can't find you
I can't find you
I can't find you
I've been to every place

When I Loved You

(Music by Harry C, Lyrics by Harry C and Theresa King)

When I open up my heart I get it broken
With it shut the pain is gone but I'm alone
Sometimes wanting to take back what I've just spoken
Always wishin' I could find myself a home

**I've been rambling through a dark and misty rain land
And from time to time I make a friend or two
But the only way to find a new existence
Is to go back to before when I loved you**

My heart's beating to the rhythm of your name, dear
I keep telling it that now we're all alone
And the drink don't make the heartache go away, dear
I'm still wishin' I could find ourselves a home

**I've been rambling through a dark and misty rain land
And from time to time I make a friend or two
But the only way to find a new existence
Is to go back to before when I loved you**

If I open up my heart will it get broken?
Should I take the chance or should I stay alone?
Can I take back all the shit that I have spoken?
Will I finally find a place to call my home?

**Tired of rambling through this dark and misty rain land
Doing what I can to make a friend or two
I don't wanna try to find a new existence
Wanna go back to the time when I loved you**

My Love For You

(by Harry C)

Even though now you have gone
I find it hard to get along
For such a long time you were there
And now my heart for you is bare

You meant so much and yet still do
I can't withhold my love for you
I think of you both night and day
And hope that you will come back my way

**My love for you will always be
I wish that you'd come back to me
I long to feel your touch again
Along my body now and then**

I hope this verse will touch your heart
It feels so bad to be apart
If this is how it has to be
My true love's ready to set you free

I miss your voice, I miss your smile
So tell me you've just left for a while
If you still care in any way
You know I'm yours again to stay

You Hold Back Your Love

(by Harry C)

From some time ago
From past experience
You know you hold back your love
You know

You decided to be
Non obligatory
You know you hold back your love
You know

**You're the girl I was looking for
All my life
You're the girl I was waiting for
To complete my life**

Everybody can
Start to believe again
It only takes some time
You know
No need to hold back your love
No more

Evergreen

(by Harry C)

I wanna give you my evergreen
Need to tell you just where I've been
Got to make you feel right
Got to make you feel light

I wanna feel you take part of my life
Celebrate my success – gimme five!
Leave the trouble behind
Work to free our minds

**Got to know my baby
I got to know that she cares
Got to know my way is
What makes her feel at home**

**Got to know my lady
I got to know that she dares
To be what she wants to be
And to sing her own song**

I wanna feel you take part of my life
Celebrate my success – gimme five!
Leave the trouble behind
Work to free our minds

**Got to know my baby
I got to know that she cares
Got to know my way is
What makes her feel at home**

**Got to know my lady
I got to know that she dares
To be what she wants to be
And to sing her own song**

I wanna give you my evergreen
Need to tell you just where I've been
Got to make you feel right
Got to make you feel light

I wanna feel you take part of my life
Celebrate my success – gimme five!
Leave the trouble behind
Work to free our minds

Got This Dream About You

(by Harry C)

I'm walking down this lonely street
No one warm around to meet
Got only you on my mind
A chilly wind blows in my face
I'm looking for a safe, warm place
Someone like you, soft and kind
Is on my mind

**Got this dream about you, baby
And it just won't let me go
Got this dream about you, baby
'Cause I need you so
I need you so**

Some people along this road
Been carrying a heavy load
For quite some time
Some people can understand
What goes on inside a man
And walk the road with you
And make you feel fine

**Got this dream about you, baby
And it just won't let me go
Got this dream about you, baby
'Cause I need you so
I need you so**

Music Is For Everyone

(by Harry C)

Music's free

Music's fun

Music's played everywhere

Music is for everyone

Feel the Joy

(by Harry C)

The mountain's high, the valley's wide
Good fresh air to breathe
The eagle flies, the marmots hide
The river flows beneath

**Feel the joy, feel the joy
Feel the joy of beauty
Beauty**

A little herd of chamois walks by
Over a field of snow
Up on the cliffs two ibexes lie
They watch us down below

**Feel the joy, feel the joy
Feel the joy of beauty
Beauty
Feel the joy, feel the joy
Feel the joy of beauty
Beauty**
